Our committed staff provide quality programming for your children each and every day. Each age group has their core group of teachers, however as a cohesive and well-oiled group we are all interchangeable and pride ourselves in the relationships and connections we make with all the children in our care and their immediate and extended families.

Rippleton Roadsters Child Care and Satellite Program is committed to the staff and their professional development throughout every year. All our staff are certified in Level C Emergency First Aid and AED training; as well Vulnerable Sector checks are conducted on each new hire. The ECE staff are also all registered with the College of Early Childhood Education and are in good standing.

Below is our staff list for your reference, this list is subject to change with the needs of the program.
