

# Homemade Ring Toss Game

ELECT: Physical 5.2 throwing with increased coordination

## Supplies:

- Large cardboard
- Ruler
- Pencil
- Scissors
- Paints (*optional*)
- Craft tape
- Newspaper/construction paper

## Instructions:

1. To make the target board, draw the outline of the board on a sheet of cardboard and add sloping flaps on either side.
2. Carefully cut out your target board with scissors. Do not cut off the sloping flaps.
3. Use a ruler and the tops of your scissors to score both sloping ends of the target board. Fold them back to create flaps to stand your board up.
4. Paint the stand one colour and each pin a different colour so they stand out. Let it dry. (*optional*)
5. To make the rings, roll up 3 layers of newspaper from the corner to the opposite corners to form a tube. Tape the ends together to form a ring. Wrap the ring with masking tape to prevent it from unraveling. Or, you may cut rings out of cardboards or paper plates.
6. Repeat above step to make more rings. .
7. **The object of the game** is to take a ring and try to loop it on to one of the pins on the ring toss board.

## Suggestions:

- You can also try to loop the rings onto stuffed animals or water bottles.
- You can loop the rings over the top of a chair turned upside down.
