

## Tissue Paper Sun Catchers

Social: 1.6.Co-operating

### Materials:

- Tissue paper in various colours
- Scissors
- White glue or liquid starch
- Paint brush
- Metal pie pan/ Wax paper
- Double-sided tape

### Method:

1. Think of the sun catcher you wish to make and chose the tissue paper colour accordingly. For example for the sun you will need yellow, red, orange, and white.
2. Dilute the white glue 4:1.
3. Give your child a metal pie pan or wax paper and have him brush the glue mixture all over the bottom the pan.
4. Tear the sheets of tissue paper into small pieces or cut into the 1" squares.
5. Place the squares on top of the glue mixture, brushing glue on the tissue paper as needed to stick.
6. When the bottom of the pan is completely covered with tissue paper, brush on a final layer of the glue mixture.
7. Allow the tissue paper to dry overnight, and then carefully peel the mosaics of tissue paper out of the pan.
8. If you like you can cut the paper into a specific shape if you want.
9. Punch a hole at the top of the sun catcher and thread a ribbon though it.
10. Hang your child's Sun Catcher in a window.
